WEATHER OF CONCERN

Weather of Concern

- Northerly gusts and flurries possible for portions of Southern California on Friday, with well below normal temperatures.
- Below average temperatures will dominate through at least next week as low pressure remains over the West.

Active Weather Warnings, Watches and Advisories by County:

- <https://alerts-v2.weather.gov/counties/CA>

WEATHER SYNOPSIS BY REGION

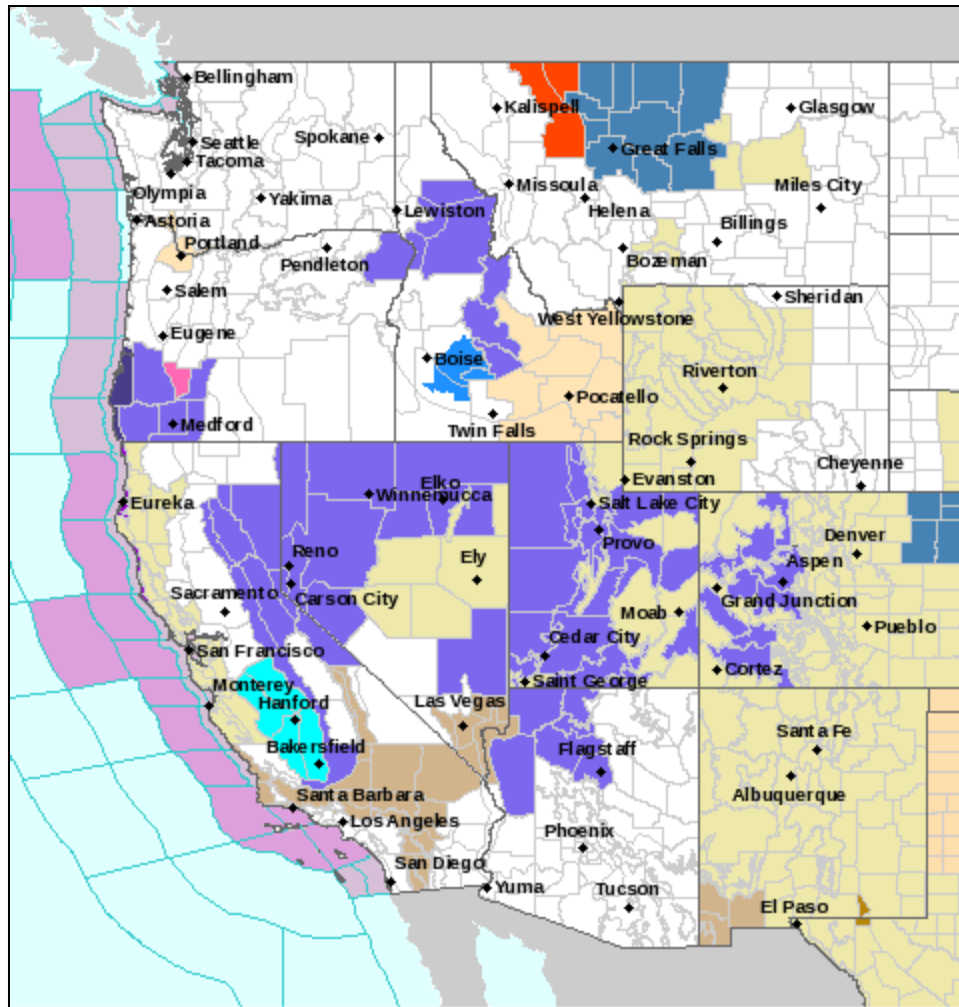

NORTHERN CALIFORNIA

The unsettled weather pattern will continue well into next week. A series of Pacific storm systems, more inside slider like systems, will impact the region during the next 7-10 days. Amounts with each system will tend to be light to moderate although there is some possibilities of heavier rain/snowfall during the latter portion of next week. Confidence is lower due to the changing nature of the models for that period. Nevertheless, temperatures will remain below normal. The first wave has already begun to impact the region. Rainfall will be found across the lowest elevations, generally below 1,000 feet, with snowfall above that level. This wave will be another quick hitter with dissipating showers tonight and dry conditions on Friday. Liquid water amounts will peak between 0.4 to 0.7" across the North Coast and Sierra mountain areas. Gusty west to northwest winds will accompany the frontal passage today with gusts between 25 to 35 mph over the ridges and Bay Area. Winds will turn more northerly tonight and gust between 35 to 45 mph within portions of the Sacramento Valley, west slopes of the Cascade and Sierra ranges as well as the higher ridges of the greater Bay Area. Speeds will lower Friday afternoon. The second wave will affect the region Saturday through Saturday night and appears to be a more glancing blow favoring the far north. A more potent wave is expected Sunday night into Monday and provide a little more widespread precipitation. Snow levels would once again be on the lower side. Additional precipitation chances exist the latter half of next week.

SOUTHERN CALIFORNIA

A disturbance dropping into California from Canada will bring isolated to scattered showers to the region through Friday morning. Most locations will receive less than a tenth of an inch of rainfall, but the Sierra and its associated foothills will receive up to a half inch of rainfall. The snow level will be around 3,000 feet. This disturbance will also bring westerly winds of 20 to 40 mph with gusts to 60 mph to the wind prone mountain and desert areas through Friday morning. Another disturbance will move into the Great Basin from Canada causing westerly winds to increase to 20 to 40 mph with gusts to 60 mph across windy mountain and desert areas once again Saturday afternoon and evening. No rainfall is expected across our region with this disturbance. Temperatures will remain well below normal through Saturday, with mid 30s to mid 40s across the mountains and 50s to low 60s in the valleys. Temperatures will warm to slightly below normal on Sunday in between disturbances. Local northeast winds of 10 to 20 mph with gusts to 35 mph will surface across the mountains and below the canyons and passes of Southern California Sunday morning. A couple of storms look to bring showers to the region most of next week. At this time, it looks as though these two storms will get progressively wetter as they move over the ocean instead of the land. Strong and gusty south to west winds will occur over the mountains and deserts and temperatures will be well below normal across the area next week.

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Missions

- **2018-LAW-45329, 02/20/18, 1906 hours:** Yosemite NPS requesting 12-15 Type-1 SAR ground searchers to assist in searching for an overdue and reported missing solo backpacker. The requested resources met for an early morning briefing on 02/21/18 at the ICP. The search area is at approximately 5,000 feet elevation and currently has a dusting of snow with a forecast of additional snow and inclement weather. Yosemite NPS requesting the Type-1 searchers be prepared for over the snow travel, self-sufficient for 24 hours and to bivouac in the field. Cal OES LEB is coordinating a response. **Update: 02/20/18, 2238 hours,** San Mateo County Sheriff's Office Bay Area Mountain Rescue Unit (BAMRU) accepted the mission and provided a portion of the requested resources. The Cal OES Law Duty Officer (LDO) updated Yosemite NPS. **Update: 02/21/18, 1250 hours,** Yosemite NPS requesting 8-12 Type-1 ground searchers with same requirements as before for an operational period on 02/22/18, with a 0600 hours briefing. Marin and Contra Costa County Sheriff's Office accepted the mission and deployed the teams to the ICP 02/21/18. **Update: 02/21/18, 1530 hours,** Yosemite NPS requesting 8-12 Type-1 ground searchers with the same requirements as before for an operational period 02/23/18, with a 0600 hours briefing. Cal OES LEB is coordinating the response. **Update:** NSP Southern advised they will be sending a team of three for 02/23/18. **Mission Ongoing.**

Cal OES MISSION TASKING

Cal OES Missions

- **2018-IREOC-45244:** Caltrans to remove dead and dying trees along highways in Kern, Tulare, Fresno, Madera, Mariposa, Tuolumne, Calaveras, Butte, Plumas, Sierra, Shasta, and Lassen counties.
- **2018-Southern-44905:** Communications support, Baker to Vegas Annual Challenge Cup, San Bernardino County (Coordinating)
- **2017-SOC-44098:** CalRecycle Debris Management Team in Ventura County
- **2017-SOC-44022:** Two E-BAM (air monitors) from Air Resources Board/Office of Emergency Response to monitor smoke from the Thomas Fire. Location one: Olga Reed Elementary School (480 Centennial St., Los Alamos); Location two: Carpinteria City Hall (5775 Carpinteria Ave., Carpinteria) (On Scene)
- **2017-SOC-43821:** DTSC to remove household hazardous waste from over 500 residential lots in Ventura County (On Scene)
- **2017-Inland-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene)

Cal OES

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
